# BINANCE P2P

Binance P2P is the platform we built in late 2018 to enable P2P Bitcoin exchange transactions using local currencies. Three years later, the platform supports buying and selling for six cryptocurrencies – BTC, ETH, BNB, BUSD, DAI, and USDT – using 55 local currencies via 150+ payment channels around the world.

Last year, Binance P2P processed \$7 billion worth of transactions made through 3.8 million orders, with daily volumes reaching as high as \$54 million. P2P users on Binance grew sevenfold compared to 2019, and they had plenty of options, with more than 2,000 P2P merchants serving their needs worldwide.

# WHY US?

We collaborate with all Markets

## EXPERT TRADING

Determine a trading position's profits or losses at different market prices.

## CRYPTO TRADING
